Hair on Face,

Grape is Better Because the Leaf is bought by men who know the GENUINE when they see it, and

The Tobacco

is made in Richmond by people who know how and have made it for fifty years. Richmond buys sells and makes all the good suncured tobacco in the world. For these reasons, GRAPE Tobacco is just a little sweeter than imitations. The tobacco from which it is made is naturally sweet, and no amount of artificial sweetening will produce the natural sweetening peculiar to GRAPE. There are many secrets of our process that imitators can't get, and they now appear to have given it up, and admit that theirs is not so sweet as Grape. Buy the genuine GRAPE Tobacco—refuse imitations.

Every brand in the United States that has "Sun-Cured" printed on the tag is made in imitation of Grape, but, like all imitations, they will soon die—and we predict that in less than three years they will all be off the market, CHEW GRAPE—made in Richmond and genuine stuff!
